Class Documentation

5.1 vke::Application Class Reference

Public Member Functions

- Application (const std::string &)
- Application (const Application &)=delete
- Application (Application &&)=delete
- Application & operator= (const Application &)=delete
- Application & operator= (Application &&)=delete
- void run ()

The documentation for this class was generated from the following files:

- C:/Users/Joshu/CLionProjects/VulkanRenderer/src/application/Application.h
- C:/Users/Joshu/CLionProjects/VulkanRenderer/src/application/Application.cpp

5.2 vke::core::Instance Class Reference

Public Member Functions

- Instance (const std::string &, const std::vector < const char * > &={}, const std::vector < const char * > &={})
- Instance (const Instance &)=delete
- Instance (Instance &&)=delete
- Instance & operator= (const Instance &)=delete
- Instance & operator= (Instance &&)=delete

The documentation for this class was generated from the following files:

- $\bullet \ \ C:/Users/Joshu/CLionProjects/VulkanRenderer/src/core/Instance.h$
- C:/Users/Joshu/CLionProjects/VulkanRenderer/src/core/Instance.cpp

5.3 vke::Window Class Reference

Public Member Functions

- · void update ()
- · bool isClosed () const

The documentation for this class was generated from the following files:

- $\bullet \quad \hbox{C:/Users/Joshu/CLionProjects/VulkanRenderer/src/application/Window.h}$
- C:/Users/Joshu/CLionProjects/VulkanRenderer/src/application/Window.cpp
